

**MUNI UNIVERSITY
NEWS LETTER
FEBRUARY 2019
(ISSUE # 27)**

Miss Camilla Gry Temmesen (Middle) being accompanied by her husband Mr Temmesen during an exchange visit to Muni University.

Miss Camilla is a Lecturer at University College Absalon-Denmark, which is in Partnership with Muni University implementing DUVE project that has two components; Staff and Student's exchanges and Reduction of Violence against Children.

Student exchange is ongoing currently, Two Third Year Students of Bachelor of Nursing Science of Muni University, Kirama Emmanuel and Aseru Jesca are in Denmark and three of the Nursing Students; Mathusana Ravindran, Olivia Brandt Ashford and Stina Isling Hansen from University College Absalon are in Muni University till May 2019.

Miss Camilla is here on Staff exchange, supervise the Students from Denmark and do some work on reduction of violence against children. According to Mr. Amos Drasiku, acting Head of Department of Nursing and Midwifery, Miss Camilla made a presentation at the Arua Regional Referral Hospital on

Wednesday 20th Feb 2019 on “Violence in Obstetric Care” after which she continued to work in the Children’s department focusing on issues of violence in Children and offering support to the Students.

She visited Arua Hill Primary Schools to understand the prevalence and management of violence in Children as well as Arua Police to understand the state of violence in children and how they handle such cases.

Below a Student shares his passion for Muni University

WHY I WOULD STILL CHOOSE MUNI UNIVERSITY

It's a blessing to be part of the mighty family and each day that passes, I exult God for giving me such an opportunity which I unwittingly was despondent that it will be a life changing moment I have always coveted for.

I am Mugabi Yese a second year Student pursuing a Bachelor's Degree in Information System and the Guild Representative Councillor for Government sponsored Students.

When I ruminate back in 2017 after I had received vacancy at Muni, joining this University was a volitional temerity that I took amidst foils but vowed never to renounce it. Allow me share a few reasons I would take to be so critical to choose Muni University even with a thousands of choices.

1. Environment: being 2km away from the heart of Arua town, doesn't only guarantee one's peace but also even from the noise that may infringe on the Student's concentration

A cool breeze from the swashing waters of the agent of the River Asa, the surrounding trees of Barifa forest to the south also make a great companion to a quiet fresh reading environment

2. Services: it's amazing to learn of the different services offered at Muni University ranging from Bachelors' programs i.e. INFORMATION SYSTEMS, INFORMATION TECHNOLOGY, NURSING SCIENCE, EDUCATION SCIENCE () Physical and Biological AND BUSINESS MANAGEMENT AND ENTREPRENEURSHIP, to short course programs like CCNA, CCENT, GET CONNECTED for both beginners and advanced learners. These highly practical courses ensure that your interests are covered or help you find a new passion.

3. Learning: Muni University is rife of facilities aimed at putting a plan in action to ensure your satisfaction. A well-stocked physical and E-library accompanied with rocket speed free internet is a high level catalyst for Research and study and an inchoate Incubation Center is yet to see a lot of scientific ideas come to life. The full time Lecturers and the Moodle platform assures that you will have the longest one to one relationship with your Lecturers and also learning at your convenience.
4. Unity: I did not only find a welcoming West Nile region in Muni University but also a lifetime family in all the Students and the Staff (Each for All and All for Each) who have one goal and driven by one common passion. Its *"sweet home from home"* if you asked me to give the mighty Muni University another name.
5. The only Public University in the West Nile region, has high quality Lecturers, relevant courses, services and facilities, unity among Students and an altogether caring Staff, seen many of her products compete and win globally, being yearned for by employers and their works highly commendable in the transformation of the lives of People they live with.

Where else would I be if it was not for Muni?!

What else would I offer if it wasn't the transformation of the lives of People?!

Thank you Muni University for the opportunity and you will forever be my number one choice.
